01. Identification

Team Name:

02. Focus Area

Problem Statement Title:

03. Pitch Summary

Abstract:

(In 100 words or less)

Proposed Solution

- Detailed explanation of the proposed solution
- How it addresses the problem

Flow Chart / Architecture

- Flow Chart: Provide a flow chart or diagram showing how the software operates from start to finish.
- Architecture Diagram: Include an architectural overview illustrating the key components and their interactions.
- Visuals: Ensure the diagrams are clear and labeled for easy understanding.

Innovation and Unique Functionality

- Innovative Aspects: Detail what sets your software apart from other solutions.
- Unique Features: Focus on any novel or unique functionalities that are not commonly available.

Technical Details

- Frameworks & Technologies: List the main frameworks, libraries, and technologies used.
- Deployment: Describe the deployment setup (e.g., cloud services, on-premises).
- Cost: Provide a rough estimate of deployment and operational costs.
- Existing Solutions and Comparison

Existing Solutions and Comparison

- Existing Solutions and Comparison

Supplementary Information (Optional)

Demo Video Link

Share a video walkthrough or demonstration showing your working solution in action.

`https://youtube.com/watch?v=...` or Drive Link

Live Website Link

Provide a URL to the live deployment, interactive web application, or prototype preview.

`https://your-project.vercel.app` or GitHub Link
